

NOC APPLICATION SUPPLEMENTAL FORM

Spray Coating Operations

This application is for activities or equipment that is:

- New (including existing, unpermitted equipment)
- Physical or operational modification of existing equipment
- Relocation of existing equipment

This application is for activities or equipment that is:

- Aerospace
- Wood furniture
- Motor vehicles
- Other, please describe: _____

Hours of operation per day: _____ Hours of operation per year: _____

Spray Coating area is:

- Spray booth/room
- Outdoor spray area, describe enclosure: _____
- Prep area
- Other, please describe: _____

Design Specifications

Volume of enclosure (cubic feet): _____

Exhaust flow rate (cfm): _____

Make: _____ Model: _____

Exhaust System Overspray Control

Dry filter system:

Dry filter make: _____ Dry filter model: _____

Manometer or differential pressure gauge installed: Yes No

Water wash system:

Water flow rate (feet/minute): _____

Flow meter installed: Yes No

Spray Coating Operations

Spray Gun Parameters

Type of spray equipment:

- Air-assisted airless
- Airless; specify viscosity of coatings: _____
- Electrostatic
- High volume low pressure (HVLP)
- Low volume low pressure (LVLP)
- Other, please describe: _____

Stack Parameters

- Stack information is specified on NOC Application Supplemental Form for proposed control device
- Stack information specified below:

Stack damper/rain guard:

- None Hexagonal Stack within stack Butterfly Inverted Cone
- Other (specify): _____

Stack diameter (inches): _____ Stack height above ground (feet): _____

Building Dimensions of project location:

Building Height (highest point of roof) (feet): _____

Building Width (feet): _____ Building Length (feet) _____

Required Attachments

1. Table (Excel file preferred) containing proposed annual usage (gallons/year) of each coating, solvents and other VOC containing materials. Coatings, solvents, and VOC containing materials must be identified with manufacturer, name, product ID, and VOC content (lb/gal)
2. Safety Data Sheets (SDS) for each coating to be applied.
3. Environmental Data Sheets (EDS), Product Data Sheets (PDS), or SDS which show the VOC content (lb/gal) of each coatings and solvents to be applied or used during surface preparation and surface coating
